

MAY PLACE TUBE UNDER GIBRALTAR

Spanish Engineer Studies Plan for Gigantic Tunnel

Tarifa, Spain, August 19 (AP)—A project conceived three-quarters of a century ago by a French engineer to connect Europe and Africa by a tunnel under the Straits of Gibraltar is occupying the attention of the Spanish government.

Luis De Pena, director of the Spanish Geological Institute and member of the government commission of experts studying the proposal, said that preliminary drilling tests have met with success and prospects for a tunnel seem somewhat brighter.

The tunnel would begin in this city and terminate in Morocco, a distance of approximately eight miles. The first tunnel plan for the work is attributed to a French engineer named Laurent De Ville, but since that time it has absorbed the interest of Spanish, English and other French experts.

The commission of Spanish experts has been conducting, under a government subsidy, preliminary drilling tests on this side of the channel to determine the conditions of the land under which the tube must pass.

Drilling on the Moroccan side will commence soon. Violent currents are hampering sounding and testing work on the center of the straits.

The investigating commission believes the giant tube could be placed from 200 to 300 feet below the surface in the center of the straits, which is considerably less than first believed, but it is regarded still as a considerable depth for such a feasible undertaking.

Padlock Ousts Couple From Home in Boston

Boston, Aug. 19 (UP)—A dwelling has been padlocked as a liquor nuisance here for the first time since prohibition in this section of the country.

Tony Principiotti and his wife Mary will not be permitted to live in their South Boston home again for a year as result of a padlock placed last night by Deputy Sheriff Richard Sweeney, acting on a superior court order.

Leaving their furniture in the house, Mr. and Mrs. Principiotti departed last night and were understood to be living with relatives today.

The padlock proceedings resulted from a series of dry law violations.

The present business slump will be succeeded by a greater prosperity than America has known for ten years.

Boston—Two thousand officers installed at colorful ceremony of knights of Columbus.

Boston—Peter J. Harvard, former substitute carrier at Worcester post office, pleads guilty to theft of letter and is sentenced to four months in the house of correction.

Boston—Governor Frank G. Allen announced the appointment of a special commission to investigate retirement allowances for employees of the commonwealth and the metropolitan district commission.

Walpole, Mass.—Search for Jerome Zwicker, alleged murderer of his 22 year old wife, Gladys, turns to Charleston, S. C.

Hyannis, Mass.—Public fund for a drive against the mosquito goes over its \$200,000 mark.

Boston—Executors of the estate of the late Colonel William A. Gaston file suit to recover damages of \$89,000 from the receivers of the Hugh Nawn Contracting company.

New Bedford, Mass.—An alleged understanding between the late Frederick S. Brightman and his secretary is the basis for attachment of \$150,000 against the Brightman estate.

Hartford, Conn.—Connecticut tobacco growers say they must have outside aid or go out of business because of recent disastrous storms.

AIMEE VERY SICK, ASSOCIATES ADMIT

Noted Evangelist Suffering From Nervous Breakdown

Los Angeles, Aug. 13 (AP)—Aimee Semple McPherson evangelist was described by associates today as being in a serious condition after a nervous breakdown she suffered more than two weeks ago.

The board of directors of Angelus temple last night adopted a resolution calling for prayers for their leader's recovery, in which they declared "it is true that physicians are greatly concerned for her recovery."

Where Mrs. McPherson was being cared for was not revealed by temple associates and even after the directors' action associates of the pastor would give but little information.

"She is being cared for at the home of friends," Miss Harriet Jordan, president of the Bible school at Angelus temple said. She admitted Mrs. McPherson's condition was grave.

Mrs. McPherson conducted services two weeks ago at the temple. A few days later it was said she was to absent herself for some time in order to write a book.

Following reports by physicians of the seriousness of her illness, associates notified the evangelist's two children to return home immediately. Roberta, a daughter, is in Paris, and her son, Ralph, is in the midwest.

Claim Check Worthless, Sue Morelli for \$200

Suit to recover \$200 for merchandise has been brought by H. J. Klein and Sidney Vogel of Norwalk, against James Morelli of this city. The plaintiffs claim merchandise was given Morelli in return for a check which they say was worthless.

Gangsters Use Strong-Arm Methods to Boost Food Prices in New York

New York, August 19 (AP)—Evidence that widespread organization of "racketeers, guerrillas, and gangsters" is using "strong-arm" methods in New York city to boost the cost of living was before state investigators today as they pursued their inquiry into food profiteering.

Despite reluctance of witnesses to testify and their stories that they had been threatened with ruin and death if they refused to comply with the mandates of the racketeers, Assistant Attorney General William B. Groat, Jr., predicted more sensational revelations.

"You've heard nothing compared to the exposures that are coming," he said.

Milk Ring Rejuvenated

Testimony elicited from two dozen witnesses indicated that the old Larry Fay milk ring had been rejuvenated, and that a "mysterious" organization was threatening ruin to large wholesale businesses and willing to lower egg prices here 5 cents a dozen.

Mr. Groat asked Police Commissioner Mulrooney to supply protection for the Utah Poultry Producers' Association after Benjamin Brown, executive director in New York city, testified its business was being ruined by the food combination because they cut prices.

Mr. Brown testified that his association had been delivering three carloads of eggs a day in New York until a month ago, and that its business was steadily growing until a stranger visited his office and warned him not to interfere with "our racket."

He identified the visitor as a Mr. Capelovich of the Vinland Butter and Egg Company.

"You better get up and not hurt into the regular set-up in New York by selling direct to retail grocers," Brown quoted Capelovich as saying. "Remember, you have been warned."

When sufficient experience has been accumulated with the airships R-100 and R-101, it is intended to organize regular services between the three cities," the bulletin said, adding that aircraft development has brought transatlantic flights into the realm of regular air-routes and that all-year round service is foreseen.

USE THIS LIQUID!
Kills flies and mosquitoes faster because "It Penetrates"

Black Flag Liquid penetrates the tiny breathing tubes of flies, mosquitoes, moths, roaches, ants, bedbugs, fleas. Every one dies. Always costs less than other well-known brands. Money back if not satisfied.

Three "regular" routes are mentioned. The northern route would be by way of Cape Farewell, Greenland, the direct route via Newfoundland, and the southern route via the Azores. Another route via Vancouver via the Faroe Islands, Iceland, and Greenland, is being considered.

SOUTHINGTON MAN DIES

Southington, Aug. 19.—Edgar C. Yoomans, 71, of 26 Oak street, a veteran employee of the Peck, Stow & Wilcox Co., died last night at the Hartford hospital where he had been a patient for the past week. He is survived by two daughters. Funeral arrangements are incomplete.

Asks City to Pay for Window Broken by Tree

Because a heavy wind on the night of March 3, blew a limb from a tree and broke windows at the home of Adam Kolodziej of 77 Oak street, Kolodziej has asked the city to reimburse him. The claims committee has considered the case and will recommend rejection of the petition.

10 MORE BODIES FOUND IN MINE AT BLAKEBURN

No Attempt Made to Identify Recovered Men—May Take Several Days to Bring All Out

Blakeburn, B. C., Aug. 19 (AP)—Ten bodies were found last night in the Blakeburn mine, where 45 workers were entombed in an explosion last Wednesday. Three bodies had been recovered previously.

Rescue workers returning to the pit head just before midnight announced that the bodies were located on No. 1 slope. Other bodies had been found near the pit portal. Rescuers had penetrated quite a distance from where they were temporarily halted by Friday's fire. No attempts were made to identify the dead men. Workers said that with cave-ins blocking the slope, it might be several days before the bodies could be brought out.
